

## Chasing the Wind and Sun: ONEIA's Renewable Energy Breakfast

A breakfast meeting to share the forecast for wind and solar technologies and connect pre-commercial companies with the big players and financiers.

**Time: 7:30 a.m.- 10:00 a.m.**

High fossil fuel prices, rising concerns about global warming, and Ontario's Green Energy Act have resulted in significant interest and growth in solar and wind energy technologies and installations in Ontario, particularly in the area of "small" technologies and solutions. Billions of dollars worth of major projects are either in place or under development across Ontario and there is considerable untapped potential in the area of smaller technologies and projects.
